Certificate IV Mental Health Peer Work (CHC42912)

VICSERV is currently developing and contextualising training materials for the Certificate IV Mental Health Peer Work (CHC42912), a new qualification designed for consumer workers and carer workers who are employed within the mental health sector. We will be in a position to offer this program in **early to mid 2015**. We are now taking expressions of interest from existing community mental health consumer and carer peer workers who want to complete this nationally recognised qualification.

Please complete this EOI for yourself or on behalf of your staff. If there is enough interest (16 or more registrations) in an organisation or within a region, VICSERV is able to provide this program at a time and location to suit you.
